**Nuclear Energy Leadership Act (NELA) Gets Push From Leading Voices  
*Labor Union, Environmental Organizations, Nuclear Energy Businesses, and others  
team up urging passage of NELA***

WASHINGTON, DC -- ClearPath Action as well as more than 20 organizations from industry and environmental groups, labor unions, and nuclear energy innovators sent a letter urging Senate Majority Leader Mitch McConnell, Speaker Nancy Pelosi, Senate Minority Leader Chuck Schumer and House Minority Leader Kevin McCarthy to promptly consider and pass the Nuclear Energy Leadership Act (S. 903 and H.R. 3306). “As the United States faces critical environmental and national security challenges, including climate change and the rapid development of new nuclear energy capabilities in Russia and China, NELA would help reestablish the United States as a global leader in the next generation of emissions-free nuclear energy,” the letter stated.

In June, the Senate Energy and Natural Resources Committee passed NELA ( S. 903) out of committee. NELA (H.R. 3306) was introduced in the House by U.S. Reps. Elaine Luria (VA-02) and Denver Riggleman (VA-05) and has 12 bipartisan cosponsors.
